

Milestone #7

- Title: Password Encryptor
- Who: Bryce Woods, Nicholas LaMonica, Marc Larock, Trevor Hunter, Waleed Elhage
- Project Tracker: Trello: <https://trello.com/b/pr7TVVwg>

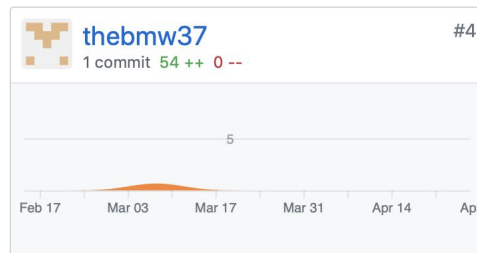

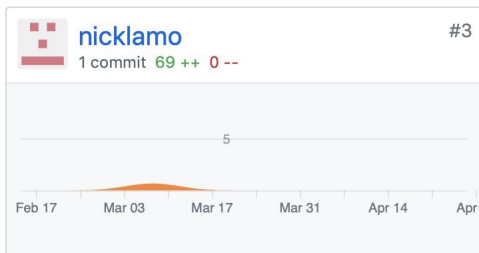

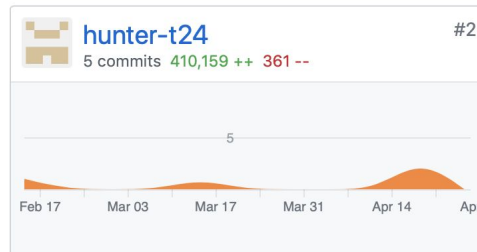

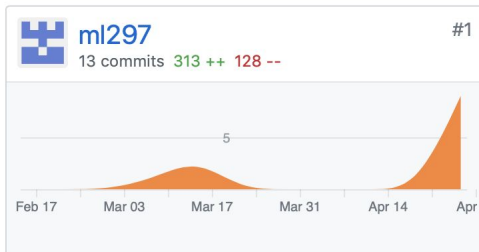

- VCS Repo: https://github.com/hunter-t24/Project_3308
 - During the course of the semester, we also worked from other git repos, since we were very concerned about overwriting work. Here they are:
 - <https://github.com/ml297/Login>
 - <https://github.com/hunter-t24/3308-Final-Project>
 - <https://github.com/ml297/Project>
- Deployment: <https://crypto13308.herokuapp.com>
- Team member contributions to final repo (ml297: Marc Larock; hunter-t24: Trevor Hunter; nicklamo: Nicholas LaMonica; thebmw37: Bryce Woods):
 - Please note that Trevor Hunter was tasked with managing the final git repo and that throughout the semester we worked from other git repos other than our final repo (see above).

Contributions to master, excluding merge commits

- Note: The number of commits for our team does not necessarily reflect individual contributions to the project. This is because we passed a lot of files between group members using Slack which one person would ultimately commit to the repository.
